

Welcome to our digital home for health and wellbeing

Introducing Spark

Spark's exciting new benefits

Experience

Access to the services you need, fast: from clinical support or counselling, to fitness programmes or wellbeing content, and more.

Single sign on

All wellbeing services under one roof with seamless access to all services.

Guided navigation

MatchTech online journey for clinical services guiding users to virtual GP, advanced nurse practitioners and online physiotherapy.

Getting you to the right care, faster.

Eligibility

Wellbeing services extended and available to ALL employees – regardless of chosen Group Protection product or % of workforce covered.

Comprehensive support

Includes a digital first for cancer risk assessment and support which is available upfront to all employees.

Helping you and your families take charge of your health and wellbeing, today.

Enhancement

Spark is our new digital home for health and wellbeing. One simple platform that enables access to more services than ever before.

Cancer Awareness and Support

Employees can understand their individual cancer risk with a digital risk assessment. Any employee recently diagnosed, will have access to practical and emotional support from an experienced cancer nurse.

CONNECTPlus

A further two conditions added to the range of illnesses already covered; Heart Health and Menopause.

Support you can rely on, from dedicated expert practitioners.

Spark's exciting new benefits

It gives everyone simple, speedy access to the following features and services:

- Single point of access to all services and available 24/7
- 24/7 in the moment support through the Employee Assistance Programme
- 24/7 virtual GP and advanced nurse practitioners plus online physiotherapy (8am to 8pm)

- Children's mental health support
- Guided online journey for health services
- Second medical opinion
- Digital first cancer awareness and support

- Long-term condition support
- Rich source of wellbeing resources – nutrition planning, fitness tracking , self-guided meditation, wellbeing podcasts and digital gym
- Adult and Elder care
- Financial and legal helpline

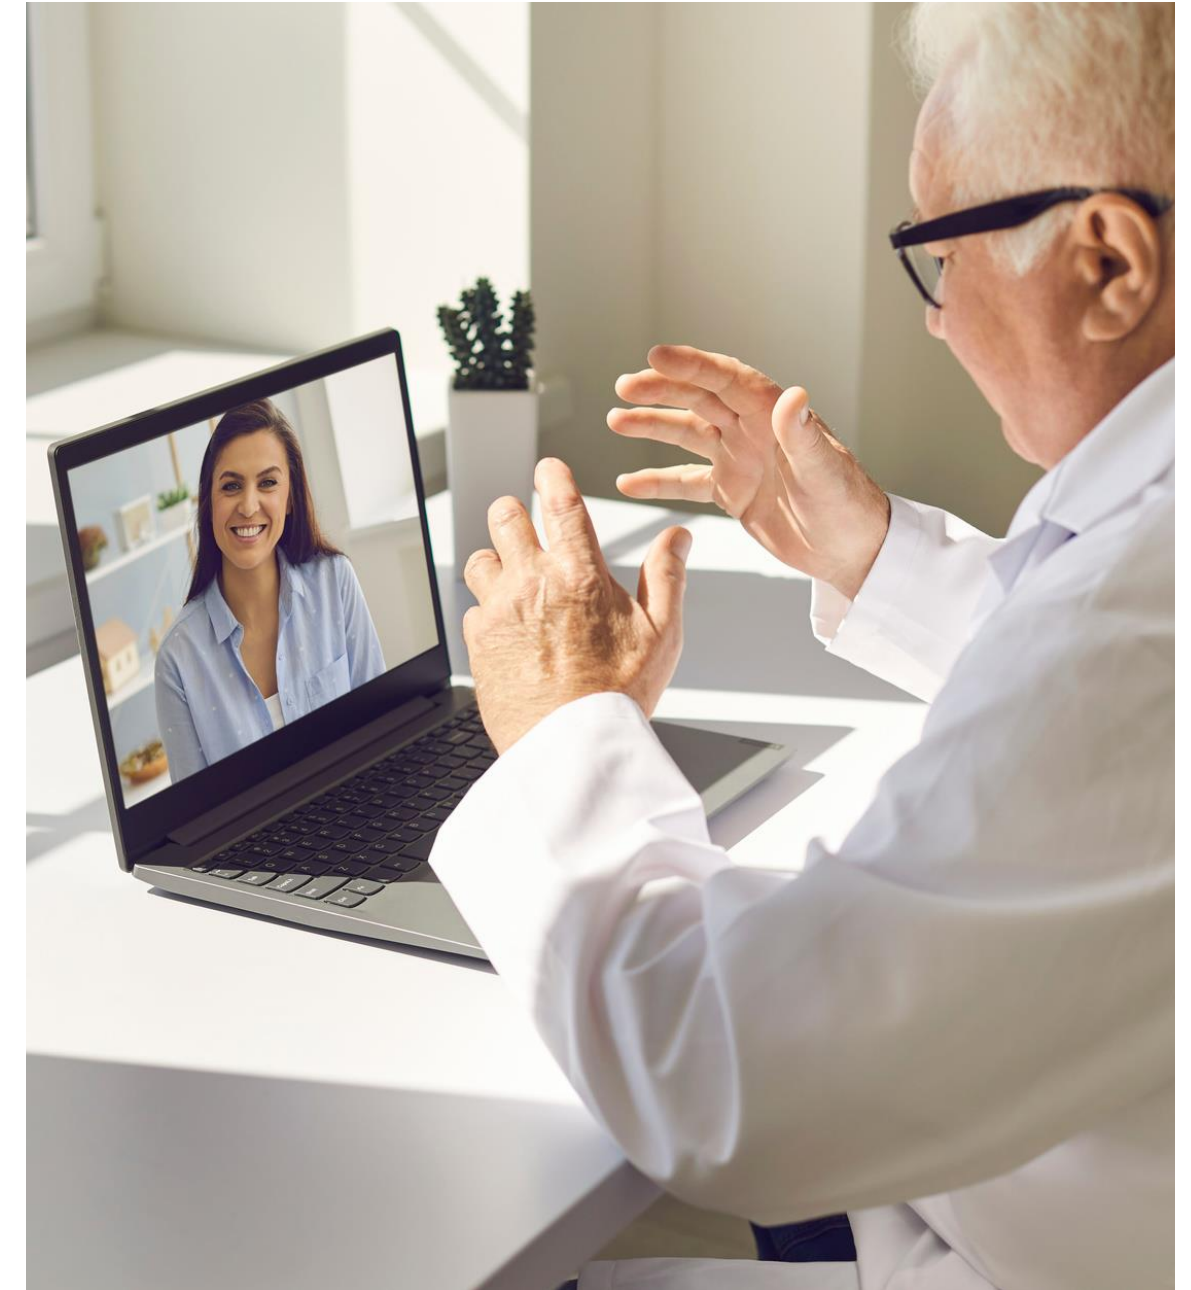

Healthcare services on demand

Provided by Spectrum.Life and available to all employees

Virtual GP, Advanced Nurse Practitioners (ANP) and Online Physiotherapy

- Access to fast, expert healthcare
- Through Spark, employees get 24/7 access to a GP or ANP consultation
- Spark's intelligent booking system (MatchTech) assesses symptoms and quickly directs employees to the most appropriate care
- ANP consultations are available for common health concerns and GP appointments for more complex needs
- Electronic or home delivery prescriptions available from the GP and ANPs. GPs can also provide referral letters and sick notes
- Online Physiotherapy available between 8am and 8pm Monday to Friday, provides digital physiotherapy for everyday concerns or specialist services such as ergonomic guidance and personalised treatment plans for more complex needs

Mental Health Support

Provided by Spectrum.Life

24/7 in the moment support – available to all employees

- A dedicated support line for employees and their families providing access to immediate confidential support from a qualified, accredited counsellor
- Employees will receive tailored support based on their needs

Childrens' and Young People's Mental Health Assessment – available to all employees

- A mental health assessment and support service helping parents feel equipped and their children to feel supported
- Children and young people are offered a mental health assessment which results in a comprehensive report
- Families are provided with guidance and practical strategies to help their children manage their emotions and behaviours

Cancer Awareness and Support

Provided by Perci Health and available to all employees

- Employees can benefit from a digital cancer risk assessment based on their lifestyle and personal and family history
- Depending on the results, employees may be offered further support or signposted to NHS screening
- For those newly diagnosed or going through treatment, practical and emotional support is available from experienced cancer nurses
- Physical and emotional support offered post treatment to help employee recovery, rebuilding confidence and wellbeing

The L&G cancer proposition is purposefully different

With increasing diagnosis, younger diagnosis and increased survival, a radically different approach is needed to manage cancer in the workplace.

Improved Claims Profile

Preventative care – proactive not reactive

- Provides seamless care across the entire cancer pathway from prevention and screening through to treatment support and survivorship
- Can identify individuals with higher risk and deliver the best care to them at this point – a truly personalised approach
- Early intervention approach

Improved Access

Digital First – available for all

- Included for every member across all products
- Digital drives increasingly personalised care – the right intervention by the right person at the right time
- A focus on driving maximum engagement through a superior digital experience.

Improved Outcomes

Built by cancer experts – focussed on outcomes

- Perci Health are the only provider backed by Macmillan Cancer Support
- 100% cancer specialists, no generalists
- Clinical-grade programmes covering common cancer side effects including fatigue, pain, anxiety.

Second Medical Opinion

Now available to all employees

- Previously provided by Medigo but now provided by Spectrum.Life who have outsourced to Red Arc
- Helps employees feel confident that they are making the best decisions for their health and wellbeing
- A Second Medical Opinion can provide clarity about an individual's condition, reassurance about treatment options and help to resolve any doubt about previous advice or recommendations
- This service will be available 9am to 5pm, Monday to Friday
- Face to face appointments available as well as practical and emotional nurse support throughout the process

Long-term condition support

Provided by HCI Digital and now available to all employees

Now available to all employees not just those covered by our GIP product

The CONNECTPlus app helps employees to support the day-to-day management of the following conditions:

- Type 2 diabetes
- Cancer
- Stroke
- Multiple Sclerosis
- Rheumatoid Arthritis
- Long Covid

NEW

Support for Heart Health and Menopause.

Features include:

Specific condition and healthy lifestyle information, symptom tracker, appointment diary and medication reminders plus video explainers and FAQs as well as tools and resources for general health and wellbeing
